Nandgaon Khan, Dist. Amravati

The Institutional governance follows its vision and mission. We know that by providing conducive environment only can achieve development of students as a responsible citizen. The various policy and practices of the institute allow transparent and progressive governance. Institutional hierarchy offers distribution of duties and responsibility among all stakeholders viz management, administrative staff, teaching, non-teaching staff. Decentralization and participation of work helps in nurturing good qualities like leadership, positive attitude which consequently enhance the work efficiency, high moral in its employee. Decentralization has an important role in strategy design, planning and execution of the system. It gives opportunity and encourage people to participate in various operations in the institute. A systematic mechanism for decentralization is necessary for effective outcome and improvement.

We have a mechanism for giving power and opportunity all the different departments to work towards decentralized system of governance. We have the highest body ie management of the institution next to it is CDC college development committee, then IQAC and staff council. The instate has an active staff council that conduct the meeting of all faculty member at the beginning of a session. There are many committees for smooth running of academic administration such as admission committee, time-table committee, anti-ragging committee, induction program, library committee, exam committee. These committee have structure of one coordinator, members and student representative.

Parent society, college development, principal, IQAC, different internal committees, teachers, non-teaching staff, student's representatives and alumni all are empowered enough to give their inputs and execute their plans within the framework institutional vision, mission and code conduct.

Vision

- **“Villages are Soul of India”** truly said by Mahatma Gandhi. Our vision is to imbibe academic, scientific, physical and social temperament in rural students to shape them into responsible citizens striving for national development.

Mission

- To provide affordable quality education in student centric and conducive academic environment.
- To assure an equal educational opportunity irrespective of gender, race, religion, caste, creed and language.
- To empower the students through personal growth, creativity, integrity and skill enhancement to serve the nation.

Core Values

- Recognizing the need of introducing scientific knowledge to the youth of the region our president established our college. She wants to bring the youth in the main streams of the education.
- Our core values are morality, excellence, social responsibility, accountability, transparency and education for everyone.

Goals and Objectives

- To develop competent students with scientific knowledge and technology with required skills to tackle the present-day challenges.
- To make aware the students regarding their responsibility towards family, society and environment and evolve them into responsible citizens.
- To promote ethical values, rational thinking, leadership qualities, team spirit in the learners and improve their personality.
- To promote student friendly and eco-friendly environment to acquire.
